Exclusive organization and collaboration tools save you time, help control costs, and enable better client service.

Visual Indicators

Visual indicators help you keep track of work you have already done.

Eyeglasses indicate you've viewed the document within the last 30 days.

A Sticky Note indicates you've annotated a document.

A File Folder indicates you've saved the document to a folder.

Notes and Highlighting

You can highlight text – choosing from a variety of colours – within a document online as you do with print materials, so when you return to the document, you're already focused.

Type your own personal research notes on a document for future reference. When you download or email documents, you can choose to include your annotations or omit them for a clean copy.

Folders

Folders allow you to drag and drop documents and text snippets into folders organized by issue or topic, which puts all vital information in one place for quicker access later.

Create an unlimited number of folders and store as many documents as you wish.
